

CONNECTIVITY FOR INTERNATIONAL AID ORGANIZATIONS AND NGOS

Peacekeeping & Security
Education & Human Rights
Conservation & Habitat Protection
Sustainable Development
Disaster Relief & Emergency Response

When non-governmental organizations and humanitarian aid agencies take full advantage of innovative communications solutions, their impact can increase greatly.

Having the right connectivity capabilities can improve an organization's business operations and also enhance how they deliver aid. Satellite communications play an important role in supporting the critical work of these organizations' staff, volunteers and first responders.

ITC Global delivers the information and communications technology solutions that enable a faster, better-coordinated response for deployed teams. Our wide suite of communications options can meet the needs of all NGO operations, from emergency response to aid initiatives.

Accelerating Humanitarian Efforts With Global Connectivity & Support

- Dedicated to creating flexible solutions to manage logistical and budgetary constraints
- 24/7 customer service technicians with extensive experience supporting aid initiatives & ERUs
- Easy-to-use equipment and global training to empower deployed staff and volunteers
- Quick-deploy emergency response solutions – highly portable and lightweight for easy transport and simple setup
- Temporary encampment or daily operations solutions – delivering office-quality internet access, VPN, voice and video conferencing

WHY ITC GLOBAL

Experience That Counts

ITC Global serves customers with demanding operations in some of the most remote environments, which uniquely positions us to use our capabilities to deliver critical communications to NGOs and international organizations around the world.

A True Communications Partner

ITC Global doesn't only provide communications in response to requests following natural disasters – we provide ongoing support and continued commitment to humanitarian organizations doing life-saving work every day. And when our customers are faced with challenging circumstances in the world's most difficult regions, we work together to help bridge the communications divide.

Training & Support

We offer plug-and-play solutions that can easily be setup by any emergency response team member. For more complex solutions, we offer training to overcome any knowledge gaps within your organization so you can get the most out of your technology investment. Our engineers and network operations staff work side-by-side with your organization to bring your team up to speed on the use of your network so that you can focus on your organization's core mission.

Global Coverage & Reach

As a Panasonic Company, we leverage the Panasonic Network's boundless connectivity with carrier-grade engineering, superior high-throughput performance, rigorous security and the largest global reach – delivering worldwide broadband to organizations with missions in some of the most remote environments.

ITC Global is regularly recognized by the following organizations for our ongoing support to improving the human condition globally. Since 2000, we have provided communications support to organizations on the front lines of humanitarian aid.
